

# Design the Living Quarters Horse Trailer of Your Dreams with Double D Trailers

*Expertly designed living quarters can transform a simple horse trailer into a 'home away from home.'*

Along with your beautiful living quarters, a custom horse trailer from Double D Trailers will provide your horses with the most innovative safety features in the industry. We've been building trailers since 1997 and specializing in living quarters horse trailers since 2003. After building hundreds of custom designs, we are confident we can help you build the trailer of your dreams!

---

## Our Advantages

---

**Plenty of Design Options** – If you can dream it, we can build it! Choose from a wide variety of interior features and styles.

**Flat Rate Delivery** – Your new trailer can be delivered directly to your home in the continental US for a flat rate of \$395. Delivery options also available for buyers outside the United States.

**Top Horse Safety Features** – Benefit from some of the most innovative safety features in the industry including patented Reverse Slant SafeTack design, SafeBump ceilings, Z-Frame construction, SafeKick wall paneling, and Rumber flooring.

**One-Stop-Shop for Warranty & Repair Issues** – You won't get the 'run around' at Double D Trailers. We will do our best to fix any problems with our trailers with specialized serviceman that can come directly to your farm.

**Expert Designers for Custom Layouts** – Go ahead and challenge us! We will work with you to meet any special design requests.

**Save Money and Get the Features You Want** – We handle the entire trailer production process from paper schematics to finished product. This hands-on approach saves you money and ensures that you get the exact features that you want and need.

**High Quality Craftsmanship** – No cookie cutter style interiors here! Include deluxe features like handmade kitchen cabinets, recessed lighting, on-board air conditioning, leather furniture and custom sound systems.

# 6 Steps to Your Dream Trailer

*Here is the basic process to create a living quarters horse trailer with Double D Trailers.*

## 1. Select Your Model and Customize –

Select a model online and the features you'd like to include in your trailer. Each trailer model has a list of features with photos, descriptions and even videos. They will help you visualize your must-haves. Once you've created your dream trailer, you can click 'Submit Your Order Request' to start the discussion with our team.

## 2. Detailed Pricing Estimate –

We will provide a detailed pricing estimate and point out any issues we see with your feature selections.

## 3. Iron out the Details in Design –

Exchange some back-and-forth emails with our design team to add and remove certain features. This will establish the final pricing.

## 4. Custom CAD Drawing –

We will create a CAD drawing to match the estimate. We have yet to encounter a design challenge request that we couldn't overcome.

## 5. Place Your Order –

Once you are comfortable with the drawing, order details, and pricing, the estimate is converted to an official order and construction begins.

## 6. Final Touches –

Lastly, we will discuss final details like color selection and décor.

*That's it! Your trailer can then be completed, approved, and delivered!*

# Problems You'll Encounter Buying From Other Manufacturers

At Double D Trailers, we approach horse trailers with living quarters differently than our competitors. Most horse trailer manufacturers do not install living quarters but rather send out their “shell” trailer to another company to have the living quarters installed.

The company building the “shell” isn’t involved with the living quarters. As a result, the newly installed living quarters may not “fit” just right. You often end up with a cookie cutter design that is missing the features you really want or need.

If you are working with a dealer, the dealer likely doesn’t do the designing himself. He has to rely on a living quarters company for drawings, so things may get lost in translation.

This method not only adds additional cost, but it becomes difficult for you to build custom living quarters horse trailers. Double D Trailers owner Brad Heath explained, “Most manufacturers are decent at cranking out repetitive work, but not so much on creating custom designs.”

In addition, if you ever have a problem with your trailer, service can be a hassle. No one wants to take responsibility to repair a problem.

We’ve seen owners get stuck with HUGE repair bills on their trailers because no one was willing to honor their warranties!

*We do things differently...*

## The Double D Trailers Difference:

Buying from Double D Trailers is not like buying from other brands. We do our designing completely in-house from the ground up. We'll help you pick out the best features, listen to any special requests and create a detailed CAD drawing such as the one below. Then, our building team will construct your trailer to specification while you pick out final touches like cabinet fixtures, sofa fabrics, and paint colors.

Once you have your trailer, we stand behind our product. If something is wrong, we will do our very best to fix it with specialized repairmen available nationwide to personally visit your farm. You won't get the 'run-around' with Double D Trailers.

## Top Horse Safety Features

Enjoy a luxurious living quarters without compromising the safety of your horses. Double D Trailers has the most innovative safety features in the industry including:

## Patented Reverse Slant SafeTack Design

## SafeBump Ceilings

## Z-Frame Construction

## SafeKick Wall Paneling

## Rubber Flooring

## Words from Our Customers...

- “The trailer is by far the “best bang for the buck” that I have seen!” Doug Brown
- “Every time someone saw me near it they would stop and ask about it. I gave 2 tours of the LQ!” Ivy Loftice of Kentucky

- “Internet shopping is good but you cannot grasp the quality and workmanship of your trailers from pictures or even videos. Everything is so well made and it’s more than I expected.” Susan Day from South Carolina

- “I cannot tell you how overjoyed we are with the new trailer. Your attention to detail rivals that of the finest RV trailers. These trailers are by far the best value on the market. The horses travel superbly well and load very easily. The living quarters are awesome. GREAT WORK!” Leslie McDonald and Douglas Froh of Ohio

- “I would just love to say a big ‘Thank you’ for making my family such a beautiful trailer. Our 3 horse Renegade is the most awesome trailer, the custom design interior plan was exactly what I ordered. I’m sure that many more Aussie’s will be towing a Double D Trailer in the years to come.” Sandy Tucker of Australia

- “My little Buffalo trailer is absolutely perfect. For such a tiny space, the storage is extensive and exceptionally well designed.” Rosemary Lawler of Leesburg, Virginia

- “We received the trailer today and were very impressed. The finish work is excellent and the amenities are great. We can’t wait to take it on our first trip.” Paul and Kim Gardin of Hampton, Virginia

# Double D Trailers Can Meet Any Design Challenge

*Here is the story of one happy customer who designed a trailer with Double D Trailers...*

Dee Montenez of Texas had very specific needs for her new trailer. She wanted a reverse load style, watering system, and the ability to haul her motorcycle along with the horses. She wrote, "After months of researching trailers on the internet, I was fed up with the look of the aluminum trailers." Dee was also concerned about the noise level of the aluminum trailers she'd tested. She knew she wanted a different and safer style of trailer.

Dee found Double D Trailers and began working with Brad. "My experience on my custom build trailer with Brad was superb. As a matter of fact, we never spoke on the phone not even once. I started with an online quote, emails, social media, and texts. There was some sense of peace of mind while making the deal with Brad. A sense of trust. I sensed his honesty and integrity from the start and those values I do not take lightly. I wanted a builder that would stand behind their work with customer satisfaction and not just a sale."

**"I sensed his honesty and integrity from the start and those values I do not take lightly."**

"I got on my custom build trailer everything I wanted from start to finish. Every selection was in detail and Brad was able to offer different ideas and choices taking in consideration the budget and availability of features. I was not too familiar with the reverse loading but after watching videos of Brad explaining all the features and the different trailers it was a no brainer. All I knew was, I did not want an aluminum trailer - not a straight load trailer - after watching video after video. I took months to decide and researched A LOT."

Now that she has her new trailer, Dee is very happy and plans to take it out at least once a month. "I love every feature on my custom build trailer. From the color selection to the appliances to the size to

the horses area, television, radio, speakers, fan, ac, cameras, horses fans, lights, shower, hidden door, steps, side and rear ramps, screens on windows, windows, ....everything... The color selection on valances, sofa, floor and appliances. The 6-ft refrigerator and lifted cabinets. The mirrors on headboard and steps to get on bed area. What is not to like? I chose everything very carefully. It is a big investment. LOL."

# Introducing our 3 Living Quarter Model Options

*We currently offer three different living quarter horse trailers for sale. Check out each model page to learn more about its specific features and benefits.*

**Trail Blazer Living Quarters Horse Trailer** – If you're not sure where to start, we definitely recommend you check out this versatile model. This 2 or 3 horse trailer can be built with a short wall ranging from 7' to 9' in length. It is perfect for the horse owner who wants all of our top safety features like the "no leak" fiber-composite SafeBump roof system, Z-Frame technology, Galvalite skin, extra rear safety divider, and the SafeTack storage compartment for safer loading and unloading. Best of all, this trailer lets you pick-and-choose from a range of additional upgrades like rear-facing orientation, 96" extra width for larger horses, and enhanced interior features in the living quarters.

**SafeTack Reverse Living Quarters Trailer** – This trailer has all of the best features we have to offer with the ability to customize for two to six horses! The spacious 10-13' short wall customizable living quarters come standard with hardwood cabinets, wooden crown moldings, and Soft Touch Walls. It also has a corner shower stall in the bathroom that is going to feel luxurious after a long day in the saddle. This model comes standard as a combination forward or reverse facing trailer with a side door and ramp that will make a world of difference for your loading and unloading safety. In the horse area, it includes all of our top features like the "no leak" fiber-composite SafeBump roof system, Z-Frame construction, Galvalite skin, extra rear safety divider, and the SafeTack storage compartment. Both of these top models are highly customizable, so if you have a question, please ask.

**EquiCraft Affordable Living Quarters Trailer** – Our final model has the main benefit right in the name. This trailer is the perfect option for you if you are looking for a 2 to 4 horse trailer with a SafeTack storage compartment and extra rear divider for safety. It is available in a 6', 7', and 8' foot layout and differs from the other two models because there are fewer customization options. Plus, we used different materials in its construction. If you want Double D Trailers quality at an affordable price, this may be what you're looking for.
